👤 Current Position

PhD candidate in Information Engineering at University of Padova.
Main interests: Graph Mining, Machine Learning, Computational Biology.

🎓 Education

PhD in Information Engineering, University of Padova, Italy.
October 2023 - February 2027 (expected)
Thesis title: *Scalable Graph Mining Algorithms with Applications to Biology*.
Advisor: Prof. Fabio Vandin.

MSc in Computer Engineering, University of Padova, Italy.
September 2021 - September 2023
Final grade: 110/110 *cum laude*.
Thesis title: *Algorithms with Predictions for Triangle Counting in Temporal Networks*.
Advisor: Prof. Fabio Vandin.

BSc in Computer Engineering, University of Padova, Italy.
September 2018 - September 2021
Final grade: 110/110.
Thesis title: *Optimizers based on the Adam method*.
Advisor: Prof. Loris Nanni.

🏢 Professional Appointments

Visiting Student Research Collaborator

April 2026 - September 2026
Department of Computer Science, Princeton University, Princeton, NJ, USA.
Advisor: Prof. Ben Raphael.
Research on the discovery of statistically enriched patterns in spatial transcriptomics.

📖 Publications

[1] **G. Venturin**, I. Sarpe, F. Vandin, "Efficient Approximate Temporal Triangle Counting in Streaming with Predictions", at 2025 European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases (**ECML-PKDD 2025**).

[2] **G. Venturin**, F. Vandin, "Efficient Spatial Domain Identification from Spatial Transcriptomics via Gaussian Mixture Models", *extended abstract* at 2026 Intelligent Systems for Molecular Biology (**ISMB 2026**).

Teaching

Teaching assistant

October 2025 - January 2026

Machine Learning MSc course, University of Padova, Italy.

Laboratory sessions covering Machine Learning, fundamentals of probability, and Python programming.

Teaching assistant

October 2024 - January 2025

Machine Learning MSc course, University of Padova, Italy.

Laboratory sessions covering Machine Learning, fundamentals of probability, and Python programming.

Teaching assistant

October 2023 - January 2024

Machine Learning MSc course, University of Padova, Italy.

Laboratory sessions covering Machine Learning, fundamentals of probability, and Python programming.

Tutor

October 2022 - January 2023

Programming Laboratory BSc course, University of Padova, Italy.

Tutoring during laboratory sessions and evaluation of final projects in C++ programming.

Professional Service

Conference reviewer: KDD (2027, 2026), WABI (2026), WWW (2025), RECOMB (2024), WSDM (2024).

Awards

VSRC Award, Princeton University, 2026.

PhD fellowship, University of Padova, 2023.

Fellowship “BUCA’22: Challenges in building billion user cloud applications”, 2022.

Opera Pia Novello scholarship, 2021.

Scholarship “Incentives for scientific degrees”, University of Padova, 2020.

Opera Pia Novello scholarship, 2020.

Opera Pia Novello scholarship, 2019.

Research activities

Computational Genomics Summer Institute (CGSI) 2026.

27th - 31st July 2026

Summer school on computational genomics and machine learning at University of California Los Angeles, USA.

DARE Spoke 3 annual meeting, DARE Foundation.

06th February 2026

Spoke 3: digitally enabled secondary and tertiary prevention, third annual meeting at University of Padova, Italy.

Co-organizer and guest speaker.

Salute 5.0 e Ricerca, DARE Foundation.

11th November 2025

Le iniziative del Piano Nazionale Complementare al servizio del futuro digitale della sanità, Sapienza University of Rome.
